# Transform your life with ThetaHealing™

Spiritual, physical &  
emotional healing

Nancy Cate  
ThetaHealing™ Master  
and Certificate of Science

Knowledge Tree School of ThetaHealing™

# ThetaHealing™ is a therapeutic, self-help guide to develop change on all levels: emotionally, physically, mentally, and spiritually.

Vianna Stibal, the founder of ThetaHealing™ lives in Idaho, USA. In 1995 life was difficult for her when, as a mother of three small children, she was diagnosed with cancer that was quickly destroying her right femur. Everything she had tried using both conventional and alternative medicine had failed. Then she discovered that a simple technique she was using in her healings and readings could heal - and her leg was healed instantaneously.

With the help of a physicist using an electroencephalograph, it was discovered that her simple technique was tapping into a 'Theta' brainwave. Over many years of practice Vianna believes the ThetaHealing™ technique uses a 'Theta' wave to achieve instant healing.

Since that special time Vianna has worked with thousands of clients, discovering not only an amazing way to connect with the "Creator of All that Is" energy that moves in all things, but that this energy could instantly change beliefs and feelings that are linked to sickness and dysfunction.

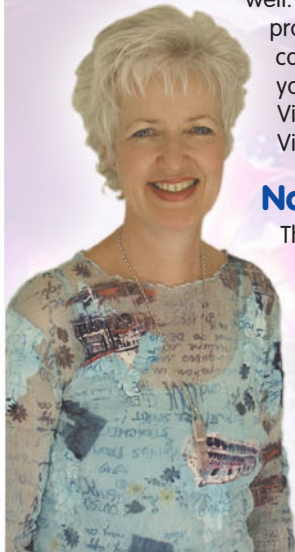

The most profound discovery was that this technique can be taught to others, leading Vianna to teach this technique to thousands of people and she has trained many teachers as well. So with the help of a trained practitioner or teacher, ThetaHealing™ can become an attainable miracle for your life too.

## Nancy Cate

ThetaHealing™ transformed Nancy's life as her depression and illness from severe stress vanished, showing her new ways to live and bringing profound joy and abundance back into her life.

She always believed it was crucial to find the origin of an issue to be utterly healed, and ThetaHealing™ answered this prayer through

beautiful belief and feeling work. Through study and practice she learnt how to use her "theta" brainwaves to witness the Creator of All That Is energy do the actual healing.

Nancy felt completely comfortable with allowing unconditional love to do the 'work' of the healing and recognized that she had come to something that would change her life forever. Personally revitalizing her own life and health gave her first hand experience and inspiration to become trained to empower others through healings and teaching.

## ThetaHealing™ Sessions with Nancy

Nancy has worked with hundreds of clients and her healing sessions are a refreshing blend of healing skills tailored to the unique needs of every client. She is highly attuned to interpreting both subtle energies and emotional issues, and how these impact on your health and wellbeing. By becoming genuinely skilled at ThetaHealing™ many of her clients have experienced instant healings and relief from a wide variety of conditions.

Dear Nancy, Thank you so much for all the love and support. From the day I was first introduced to ThetaHealing and the sessions, each one has empowered me to be all I can be. Today I am living a life beyond what I formerly believed possible and in each moment I continue to live a blessed life thanks to you facilitating the healings through the Creator.  
Loving blessings, EH
